

THE SUN GUARANTEES ITS ADVERTISERS BETWEEN TWELVE AND THIRTEEN HUNDRED CIRCULATION EACH AND EVERY WEEK OF THE YEAR

PRINTING AND BINDING

Anything from a visiting card to a bound book, and a quality of work at prices that are satisfactory. Lithographed stock certificates; and engraved wedding goods and the like. Silver stamps, sheep tags and everything in metal goods at right prices. When better printing is done The Sun will do it.

FIRE APPARATUS IS ORDERED BY CITY

THOUSAND SIX THOUSAND DOL- LARS THE EXPENDITURE.

The Fighting Machine of the Very Latest Pattern and the Equal of anything Else—Delivery to be Made in About Sixty days—Other Matters Considered.

It is to have a modern motor fire apparatus. At a meeting the city fathers held Tuesday evening the council voted unanimously authorizing the mayor to sign a contract for an American-LaFrance truck of nineteen dollar load as you bring fire engine, a machine that is not with hose equipment and other apparatus, around thirty-three thousand dollars. It is expected delivery will be made in about sixty days.

Thomas Dunnigan wishes to install electric cooking range at his residence and asked to be connected up for that purpose. When the municipal plant was installed no provision was made for such service, and it is necessary to construct special lines and place transformers to take care of this business. In the past it has been the custom for individuals to pay the initial cost of installation in such cases and take credit on the books for the amount, the monthly consumption or current being charged against the credit. The matter was referred to the electric committee.

Some time last year the two transmises placed at Parkdale Townsite company's property to distribute electric current to that section were removed by the city. W. F. Olson, on behalf of the company, appeared before the council and asked that the transmises be reinstated, himself and G. N. Harmon agreeing to make a note for the payment of the same due the city on the original amount. On these conditions council agreed to make delivery back to the power company.

James Shiner has moved his business to the John Kay property in Coal Hill addition, and requested council to extend the water system in that section. The matter was referred to the committee on waterworks to investigate conditions and cost of installation, and make report next meeting of the council.

No action was taken on the matter, purchasing a second street sprinkler, the council feeling that an extra one at night during the summer would accomplish about the same as running two sprinklers in day time.

The political collector reported that date he had collected two hundred and sixteen dollars in politics.

CONSTRUCTION WORK ON

Power and Light Company Is Losing No Time.

By the first of May construction gangs of men and teams will be pretty well strung out between Springville and Price on the line of Utah Power and Light company building into Carbon county. This is the information given The Sun by W. R. Putnam, sales manager of the company, who was in Price yesterday. He said several engineers had been over the line from Buring Glen to Huwathas. This survey is now completed and contracts are being asked for at Salt Lake City for clearing the right of way of undergrowth ready for the poles and wires.

Recently twelve carbines of poles arrived for the extension line from Springville this way and these are now being unloaded at convenient points along the line of the Denver and Rio Grande west of Soldier Summit. Where the line runs through ranches and other private properties cables are being constructed by the company for going to and from private buildings that no damage or inconvenience may be done to owners. Very little trouble has so far been experienced over rights of way.

At Colton and elsewhere to the west of Price the line is pretty well established and construction work will be fast when it once starts. At Colton a corps of workmen are working this way, and before a great while there will be all kinds of work for men and teams of Carbon and Emery counties. Steel for the towers of the line from Price to Springville is being gotten out in the best, and already much of it is on its way here.

By the time improvements planned out by Utah Power and Light company are finished this summer and fall close to seven hundred and fifty thousand dollars will have been spent in Utah, Carbon and Emery coun-

HELPER WALLOPS THE PRICE TEAM

SUNDAY'S OPENING GAME ENDS THREE TO NOTHING.

Large Crowd From Sunnyside Accompanies That Camp's Ball Players in Castle Gate to See Them Defeated Thirteen to Twelve—Castle Gate At Price Next Sunday Afternoon.

MAYS PUTS FOUR EAST ONES BY COBB'S HEAD

As Carl Mays was at one time a member of the Price baseball club some four years ago—this from an Eastern sport writer will be interested locally. To Cobb has a unique fondness for Carl Mays, Boston Red Sox pitcher. It all came about in a game last season when the Tigers were playing the Red Sox. With the famous Tyso at the bat, Cobb let fly one fast one that Cobb figured Mays was closing at him, and the peppery Georgian buried his bat at the Red Sox pitcher.

Cobb wasn't sure that Mays was deliberately trying to knock his bat off, but he made a pretty fair guess, since Mays recently admitted that he was doing his best to beat the Georgia in order to strengthen the Red Sox's chances for the flag. The opening of this season's first meeting between Mays and Cobb is awaited with interest.

MAKING RABIES PROBE

STATE VETERINARIAN TO VISIT BOX EIDER COUNTY THIS WEEK.

Dr. A. C. Young, state veterinarian, will conduct an investigation of rabies development in western and northern Box Elder county during the latter part of this week. He will establish his headquarters at Kelton.

Dr. T. H. Beatty, secretary of the state board of health, returned to Salt Lake City Wednesday from Box Elder county, where he conducted an investigation of reports of the spreading of rabies. He said that while a few cases of rabies had been observed in coyotes in Box Elder county no known damage has resulted to stock as yet.

He pitched for Helper and was in his usual good form. He had the best of support and delivered the goods when the play demanded it. Helper people were more than pleased with the large attendance from the county seat and numerous were the promises of returning the compliment. Bernard was the umpire and his decisions were fair and impartial. About two hundred and fifty saw Sunday's game. The score:

SUNNYSIDE PUTS IT OVER CRACK CASTLE GATE BOYS

Some two hundred baseball enthusiasts and others from Sunnyside went to Castle Gate last Sunday to special train over the Denver and Rio Grande to see the opening game between these two towns. It went twelve innings and resulted in a score of thirteen to twelve in favor of the

DEATH OF MRS. EWELL

PROVO, April 20.—Mrs. Fannie Ewell died at Wellington yesterday from chronic nephritis at the age of 76 years. She is arrived by two children in this city, Mrs. Sarah Pratt and Frank Ewell. The body will be brought here today for burial.

STRONGER LAMB PRICES TO COME

ARKANSAS VALLEY IN COLORADO DO ABOUT CLEANED UP.

KILLERS HAVE BETTER OUTLET FOR MEATS OF EVERY DESCRIPTION THAN FOR A CONSIDERABLE TIME—AN IMMENSE RESERVE POWER IN BEEFMAKING BUSINESS IS SHOWN AT QUOTATIONS.

THE BORN SPECIAL SERVICE.

KANSAS CITY, Mo., April 17.—The cattle market last week was distinguished by a break on Monday and a full recovery of this break later in the week, the close equal to the high time this year on all classes. Events during the week indicated that killers had a better outlet for meat than they have had for a few weeks, and prospects closed good.

The run of twelve thousand cattle today sold steady, which bears out the point that killers have a good outlet for the meat. Southern Nebraska and Kansas cattle sold up to \$9.10, Colorado pulped steers at \$8.05 to \$8.25 in most cases, a few common pulpers at \$8.50 to \$8.80, Oklahoma and caulked steers at \$8.20 to \$8.40, of light weights, some Panhandle yearlings to killers at \$8.50 to \$8.10. Texas quarantine steers at \$8.00, weighing 1915 pounds, Arkansas steers at \$9.00, possibly a record price, and the usual mixture from nearby territory, including steers from \$8.25 to \$8.40. The wide area from which supplies were drawn today points to an immense reserve power in the beefmaking business, but the moderate total indicates scarcity at this time. Cows and heifers sold strong today. Best cows up to \$8.25 and most of the heifers \$7.50 to \$8.20. A liberal share of the supply today was steers and feeders and they sold steady with close of last week, most of the stock steers at \$7.25 to \$7.50, feeders \$7.75 to \$8.25 and a few fat feeders up to \$8.75.

Killers also stated that a very little work would make the highway from Price out as good as the average in Utah. About the only labor necessary at this time is on the high centers. It was the sense of those present that a day be set apart for good roads day on the Price to Myton highway, and that citizens of Price be asked to meet those of Myton half-way and put in one or two days—or more—in fixing the road for automobile travel. A resolution was offered to this end and was unanimously adopted by the meeting.

Later a committee was appointed, composed of C. H. Marquisen, J. H. Middleton, George A. Nixon, J. H. Miller and Arthur J. Lee, to confer with the committee from Myton yesterday (Thursday) afternoon to talk matters over. A. W. Horsley, mayor, and Albert Bryner, county commissioner, were afterwards added to the committee. A motion by Arthur J. Lee that the citizens and business men of Price go on record as favoring the Soldier Canyon road and the automobile project was unanimously adopted.

During the progress of the meeting talks were made by Albert Bryner, county commissioner, Arthur J. Lee,

MYTON STAGE LINE COMING VERY SOON

ENTHUSIASTIC AND BUSINESSLIKE MASS MEETING AT PRICE WEDNESDAY EVENING—THIS AND OTHER MATTERS DISCUSSED.

There was a big turnout of citizens of Price at the meeting called for City Hall last Wednesday evening by A. W. Horsley, mayor, to discuss the matter of a sugar factory and railroad to Eastern Utah, and also the proposed stage line to Myton and the Uintah Basin from this city. Mayor Horney was made chairman and S. L. Williams the secretary of the meeting. Twenty-five to a hundred representatives citizens and business men of the city were present and everyone was most enthusiastic over the matter under discussion.

Woodruff Alexander, a gentleman named Davies were here from Myton. The former addressed the meeting and among other things said it was the intention of himself and others at Myton to form a transportation company to operate between Myton and Price with the headquarters of the concern in this city. It had been proposed to incorporate for twenty-five thousand dollars. The citizens here would be asked to cooperate with the Myton people interested. At the Myton end of the proposition the money is ready to go ahead with the line.

It was Alexander's idea that an automobile could leave Price at 7 o'clock of the morning and arrive at Myton at 12:30 o'clock of the same afternoon. The same schedule would operate from Myton to Price and the same time made. Messrs. Alexander and Davis have for a considerable time been connected with the Duchesne Transportation company. The two visitors stated that they had come in over the Price to Myton road and with the exception of a few places the road is even at this time the superior of any highway in and out of the former Uintah reservation.

Alexander also stated that a very little work would make the highway from Price out as good as the average in Utah. About the only labor necessary at this time is on the high centers. It was the sense of those present that a day be set apart for good roads day on the Price to Myton highway, and that citizens of Price be asked to meet those of Myton half-way and put in one or two days—or more—in fixing the road for automobile travel. A resolution was offered to this end and was unanimously adopted by the meeting.

Later a committee was appointed, composed of C. H. Marquisen, J. H. Middleton, George A. Nixon, J. H. Miller and Arthur J. Lee, to confer with the committee from Myton yesterday (Thursday) afternoon to talk matters over. A. W. Horsley, mayor, and Albert Bryner, county commissioner, were afterwards added to the committee. A motion by Arthur J. Lee that the citizens and business men of Price go on record as favoring the Soldier Canyon road and the automobile project was unanimously adopted.

During the progress of the meeting talks were made by Albert Bryner, county commissioner, Arthur J. Lee,

NUMEROUS CONTESTS ON

MUCH INTEREST CENTERS ABOUT CARBON STAKE EVENTS.

This (Friday) evening and Saturday, April 21 and 22, have been selected as the dates for the Mutual Improvement Association contest of Carbon stake. With the exception of the baseball game Saturday afternoon, the contests will be held at the tabernacle.

Beginning this (Friday) evening at 7:30 o'clock there will be senior and junior contests in retail store. Following these there will be public speaking and musical fare. At 8 o'clock dinner will be given for the visitors and their friends.

On Saturday morning at 10 o'clock there will be a girls basketball game, girls' indoor baseball game and the senior basketball game. At 1:30 o'clock Saturday afternoon there will be a baseball game at City Park.

At 4 o'clock the contestants will return to the tabernacle and there will be senior and junior contests in piano solo and senior and junior contests in vocal solo.

Saturday evening beginning at 7:30 o'clock there will be soprano solo, tenor solo, vocal duets, a chorus by six members of the Boy Scouts and a selection by a double mixed quartet. The evening will close with a social.

All citizens of the town and country are invited to attend all the contests, and there is no question but that they will be well rewarded. There will be forty people from Sunnyside, including a large number of contestants.

Their will also be large delegations from Castle Gate and Stans.

LEGAL BLANKS

The Sun carries in stock all legal blanks commonly in use, deeds, mortgages, location notices, leases, contracts and the like. The most complete stock in Eastern Utah. Orders filled and mailed the day received. Let The Sun fill your legal blank orders. When better printing and binding is done The Sun will do it.

ARE COMING TO UTAH

Colorado School of Mines Young Men to Visit Carbon County.

The senior class of the Colorado School of Mines at Golden will have there next Monday for an inspection trip of the mines, mills and smelters of the Rocky Mountain region. The men will return to Golden on the 23d of May.

The canons and cities to be visited are Colorado Springs, Victor, Leadville, Canon City, Breckenridge, Raton, Glenwood Springs and New Castle in Colorado, and Castle Gate in Carbon county, Salt Lake City, Bingham, Ogden, Silver Bow, Anaconda and Butte.

SMOOT IS IN FAVOR OF THE HOMESTEAD MEASURE

WASHINGTON, D. C., April 18.—Senator Smoot said today the report that he is opposed to the six hundred and forty acre grazing homestead bill in its present form is not correct. He was opposed to the bill, he said, before it was amended to provide stock trails to and from national forests and shipping points and to reserve from entry water holes for public use for live stock. In the form the bill is now before the Senate it has the support of practically all Western senators, and Senator Smoot will not oppose its passage.

SEEKS MISSING HUSBAND.

Mrs. Irving Dutcher of 162 Johnson Park, Buffalo, N. Y., has appealed to the Utah press to aid her in finding her husband, Irving Dutcher, who she believes is traveling "somewhere in the West." Mrs. Dutcher has been seriously injured in an automobile accident, is penniless and is being cared for by friends until her husband can be found.

Mr. and Mrs. Peter Joansome lost their infant child, a girl of about six months of age, from diphtheria, this morning. No arrangements have been made yet as to the time of the funeral.
